19-25JB < 7

Are the 7 B&W duplications of 46 through 52 or just similar to 46-52 - does

this mean 45 pix, or 52 pix, or, of the JB's are different negatives 63, n 70?

Why are some with our initials, some with , from JB(Bs) JT(Bs) G(Bs)

were these 7 taken after our stay? If so, were they all taken after initial year?
